

Klauber & Jackson Attorneys, Maywood, New Jersey

Klauber and Jackson is a highly regarded law firm that specializes in patents and intellectual law. At the end of their lease in the Continental Towers in Hackensack they desired to move to a new location that would be slightly smaller with a substantial reduction to their overhead. The Ives Architectural Studio examined the existing office and took an inventory that was used as the program for the new office in Maywood, NJ. Our staff designed the plans and, configured new workstations, for the new office which required very little construction. The move was accomplished quickly and on budget.
