

Bridgewater Grande Commons, Bridgewater, New Jersey

The Bridgewater Grande Commons office building is a three story, 130,000 Square foot Class A speculative office building. The glass and granite clad building boasts a three story atrium space, surrounded by glass walls and topped by a fifteen foot diameter skylight. The building is set in a serene wooded campus bounded by a large reflecting pool one side and the phase two building on another. The two buildings share a large outdoor plaza, which is a favorite retreat for employees. The Ives team was the architect of record working with BCC Construction. The building has been acquired by a New Jersey based fortune 500 company for their expanding company.
